Kaafila Metaverse
Virtual Learning & Virtual Working
Building for the Blockchain Economy

Pitchdeck - 31 July 2022
www.Kaafila.org

Vision & Goals

Kaafila Metaverse will help Users with "virtual learning" (in virtual classrooms, research labs) and "virtual working" (in virtual offices, industry parks, industry expos).

- Kaafila will offer free courses, and enable remote/virtual working opportunities for 100 million Users worldwide to "learn for free, and earn from anywhere".

- Kaafila Metaverse will be like "virtual NYC" or "virtual Dubai" - a virtual world with no passports, no visas; just based on merit, hard work, and integrity.

New NYC in Kaafila Metaverse

New Manhattan in Kaafila Metaverse

New Dubai in Kaafila Metaverse

Here's a Bank in the Financial Center in Kaafila Metaverse, District 1.
Many leading banks may open offices in Kaafila Metaverse, esp in the New Manhattan area.
Ideal for showcasing financial products and services, engaging with clients, and live testimonials.
Kaafila will develop the bank branch in the metaverse as per the bank's specifications, earning good income in the process.
In the near future, our humanoids can be trained by the bank to offer one to one customer service 24x7,
and the humanoid can contact specific officers of the bank for any help, if needed. This bank truly never closes!!

Humanoids of Kaafila Metaverse (they will be as real as it gets, and they will work as Teachers, Traders, Coaches, Consultants, Software Developers, Journalists, Bloggers, Bankers, Accountants, Insurance Agents, Real Estate Agents, etc. Kaafila Metaverse will have Humans and Humanoids working together, with respect and without discrimination)

Kaafila Metaverse

- Kaafila Metaverse will enable "Virtual Learning" and "Virtual Working" in a realistic environment – with Virtual Classrooms, Colleges, Research Labs, Virtual Offices, Industry Parks, Industry Expos, Virtual Travels including Space Travel.

- Income will be from Metaverse Land Sales (NFTs are listed are OpenSea), Ads in Classrooms, Ads on Metaverse Billboards, Paid Courses (20% courses will be paid, 80% free), Sales & Rental income from Virtual Offices, Bookings income from Industry Expos/Events, Virtual Travel Tickets, and Offsite Camps.

Kaafila Metaverse
(Details)

- Kaafila Metaverse will have well-designed offices for freelancers, consultants, remote workers, startups, small and large companies, at very affordable rates. Kaafila Expo (like Dubai Expo) will have industry expos every month, at a fraction of today's costs.

- Kaafila Metaverse will combine AI and Blockchain technology to create high engagement.

- **Kaafila Metaverse has finite land** - Total 10 districts to be developed over 20 years.
- Only District 1 and District 2 will be developed from 2022-2025. For District 1, 50% of Metaverse land will be sold on OpenSea, and 50% will be developed by Kaafila.

- Kaafila Metaverse can get $2-10 mn sales in 5 yrs, with investment of $500K in 2022-2025 (most of it can come from Metaverse land sales; $100K capital needed to start sales)

Kaafila Metaverse with 10 Districts
(indicative Image, very similar to actual)

Virtual Classroom in Kaafila Metaverse - to deliver Free Courses
(a good teacher with motivated students is a powerful combination)

Virtual Office for Rent in Kaafila Metaverse, District 1 - for Freelancers, Consultants, Startups, and Small Biz, at very affordable rentals.

Software Development Centre (SDC) in Kaafila Metaverse - a future version of this will include Humans & Humanoids, and software for Metaverse evolution will be developed inside the Metaverse!

F24 Estate plot in District 1 of Kaafila Metaverse

with Yalda, the first person in Kaafila Metaverse)

Kaafila is now among Highest Ranked Projects in Algorand Blockchain Ecosystem

Feedback from Stakeholders

"I have been following the Kaafila project since the launch, and I'm really impressed with the goals and development. I believe in the project so much!"

"I have complete confidence in the Kaafila project, in fact I have not seen many projects as bold and ambitious like it yet, except the Bitcoin project. Why I so much love it is because it's organic, it's alive! Many may not understand me when I say that...time will reveal it!"

"None of us had Bitcoin in its first year, and now we have a chance to buy KFL token in its first year at very low rates. Huge upside with limited downside, let's share Kaafila with maximum people."

"Kaafila is a good project and strong team with a predictable and transparent roadmap. I think in the near future we will see an unprecedented growth of this project."

"Kaafila is one of the most unique projects in the Algorand blockchain and I'm happy to be a part of it."

"Nice project and congratulations to the team for their efforts and dedication and highly appreciated the visionary thought of the project and it will create history."

Why Kaafila? What problem are we trying to solve?

Over 500 million people worldwide are facing low quality education that does not convert into reliable income. Many years of school/college that does not deliver gains. Very few options for practical training or internships in developing countries. Over 1 million searches/month on Google for online courses with useful skills and certifications. Over 500K searches/month for "free online courses with certificates" on diverse subjects like: computer science, programming, blockchain, crypto, NFTs, digital arts, business management, financial markets, trading, teaching, healthcare, logistics, etc. There are huge differences in the income earned by people worldwide for the same work. Social background, race, location continues to impact a person's ability for education and income opportunities. This has to change.

Kaafila Solution

Kaafila will help Users worldwide with Free Education and Work Opportunities through Kaafila Metaverse - a new virtual world with a focus on education, work, and business. Our free courses with certification and internships, will utilize the energy and potential of people in productive ways. Kaafila aims to help 100 million Users with our blockchain apps to "learn for free, and earn from anywhere".

Why Now? Why care about it?

We are in the early phase of blockchain economy, and it can grow 100X in the next 10-20 years, and Kaafila will participate to the full extent with a portfolio of profitable blockchain apps to grow the project value.

The core theme of Kaafila Metaverse is knowledge sharing through "virtual learning" and monetization of knowledge through "virtual working" in the blockchain economy, which has 100X growth ahead.

The rise of digital assets (domains, cryptos, NFTs, etc) and knowledge sharing (wikipedia, youtube, twitter, etc) is a "mega trend", and Kaafila will participate in it fully with a portfolio of blockchain apps, and worldwide User base.

We are sure about one thing: Every constraint that is capital intensive in the physical world will be broken in the metaverse. Merit will prevail over capital. Bitcoin has already laid the foundation and started this trend.

Summary

1. Kaafila Metaverse aims to help Users worldwide with virtual learning and virtual working.
2. Kaafila aims to help 100 million Users with free education and remote working opportunities.
3. Kaafila is among Highest Ranked Projects on Algorand Blockchain Ecosystem (top 3 from 100+ projects).
4. Over the next 5-10 years, Kaafila will develop a portfolio of useful blockchain apps that are integrated with Kaafila Metaverse, for maximum benefit to our Users.
5. Kaafila Metaverse will lead income generation - can generate $10-100 mn USDT in 10 years.
6. Kaafila Metaverse land NFTs will drive the sales growth in the near term; they are listed on Opensea.io
7. Kaafila Courses will lead User acquisition - can bring 50-100 million Users in 10 years.
8. Traction: 23K Users, 65 Team Members, and 58K Social Media Followers. Visibility of 1 million Users.
9. Kaafila is setup for 20+ years, and our Users and Team Members are rewarded in KFL tokens.
10. Kaafila is a blockchain project, and the only way to participate is via KFL tokens.
11. KFL token is modeled on Bitcoin with "finite supply" to be released over 20+ years. No dilution ever.
12. Sales Projection: $2-10 million USDT in 5 years, if necessary funding comes in 2022-2023.
13. Funding Need for 2022: $135K USDT (for Kaafila Metaverse development & marketing to start sales).
14. The rise of digital assets (domains, cryptos, NFTs, etc) and knowledge sharing (wikipedia, youtube, twitter, etc) is a "mega trend", and Kaafila will participate fully in it with a realistic Metaverse for virtual learning and virtual working, by helping millions of Users to "learn for free, and earn from anywhere".
